

Please leave Indianas " Do Not Call" rule in effect. I worked nights and would always get unsoliciated phone calls starting at 8am and as late as 11pm. This would be every day. When I asked them to please take me off there lists and try to be polite they said they would and the next day call again. Indianas law is very effective and I now do not recieve any calls. The attorney generals office in Indiana has done a great job here. DO NOT CHANGE INDIANAS LAW and let these so called business people change it
